## 1. Read the following passage then answer the questions. اقرأ وأجب على الاسئلة

Human beings have always needed somewhere safe and comfortable to live – somewhere away from the world outside. Our ancient ancestors often used caves. Later, they learned to build houses and they designed them to keep out wild animals and bad weather.

The Masai people of East Africa began building their houses together in circles. **They** were very simple, but each joined the next, and together they became a strong wall. At night, they brought their cows and goats into the centre, safe from dangerous animals. Some Masai have continued living in communities like this until today.

Today, most people have moved to live in modern buildings, but one thing has not changed. We still need somewhere away from the outside world, a place to relax with family and friends.
